

FOR IMMEDIATE RELEASE:

SecureZIP® & PKZIP® for i5/OS® offer Day One Certified Support of IBM® i5/OS V6R1M0

Milwaukee, New York, London, Tokyo—January 2008--PKWARE, Inc., the leader in data protection and file management applications for z/OS®, i5/OS (IBM i®), AIX®, Solaris®, HP-UX®, Linux®, and Windows®, confirmed that both SecureZIP and PKZIP for i5/OS completely support IBM's latest midrange version, V6R1M0, on the first day of the operating system version's release. PKWARE worked extensively with IBM to ensure early adopters of the new midrange version that SecureZIP and PKZIP would continue to meet their needs and they could migrate immediately, with full confidence.

SecureZIP for i5/OS is used globally to protect midrange-generated data at rest and in transit, applying strong encryption to files archived into cross-operating system portable .zip files. Support for IBM i5/OS V6R1M0 allows customers to take advantage of the functionality of the new operating system version, including virtualization, storage enhancements, and high availability.

“PKWARE, Inc. has extensively tested SecureZIP for i5/OS and fully supports IBM i5/OS V6R1. Our file-based encryption performs flawlessly on this latest version of the OS. Performance improvements in IBM's latest release will be a welcome feature to all of IBM's System i customers. We worked closely with IBM on this release to ensure customer needs were met, fully and completely,” said Joe Sturonas, Chief Technology Officer for PKWARE.

#### **About PKWARE, Inc.**

PKWARE, Inc., the largest global software company providing ZIP solutions, is the creator and continuing innovator of the ZIP standard. PKWARE products are used to ensure the security and portability of data internally, as well as with partners, across all major platforms. Hundreds of global organizations in financial services, banking, retail, healthcare, government, and manufacturing use PKWARE services daily. PKWARE products provide unmatched scalability, ease of use and deployment, making them the most cost-effective means of securing data and complying with industry regulations. PKWARE, a privately held company, is based in Milwaukee, WI with offices around the world. PKWARE Japan K.K. serves the Asia Pacific market including China, South Korea, Singapore, Taiwan, and Malaysia from its offices in Tokyo.
